

INDEX TO VOLUME FOURTEEN (Original Articles)

A

- Adenoacanthomas of the colon (letter to the editor), 317
- Adenomas, papillary, 267
- Adenomatous polyps in dog rectum, carcinoma arising in, 191
- Ameboma of the ascending colon complicated by cholecystocolonic fistula, 386
- Ameboma, relation to cancer of the cecum, 12
- American Proctologic Society, history (presidential address), 1
- Anal canal, pilonidal sinuses, 468
- Anal canal, tuberculosis, 313
- Anal region, venereal disease in India, 454
- Anorectum, transitional-cell cloacogenic carcinoma, 222
- Anticoagulant therapy complicated by hemorrhage into the ischiorectal fossa, 398
- Anus, fistulas, treatment, 134
- Anus, papillae, 435
- Anus, posterior and anterior proctotomy, 62

B

- Barium, nonperforating extrarectal escape complicating barium enema, 381
- Bleeding from diverticula of the colon, 420
- Bleeding, massive traumatic anorectal postoperatively, 305
- Blood dyscrasias, proctologic disorders associated with, 4
- Bolus obstruction relieved by endoscopy, 400

C

- Cancer, cecal, and amebic granuloma, 12
- Cancer, colonic, transverse colostomy in management, 232
- Cancer, colorectal, liver scan in management, 43
- Carcinoid tumors of the rectum, 46
- Carcinoma arising in adenomatous polyps in dog rectum, 191
- Carcinoma, colonic, interflexural: clinical, radiologic, and pathologic correlations, 255
- Carcinoma, colorectal (symposium), 81
- Carcinoma, colorectal, survival of patients with hepatic metastases from, 431
- Carcinoma, linitis plastica of the colon, 389
- Carcinoma, linitis plastica of the rectum, primary, 218

- Carcinoma, obstructing colonic, ischemic colitis proximal to, 38
- Carcinoma, squamous-cell of the cecum, primary, 213
- Carcinoma, transitional-cell cloacogenic of the perianal region, anal canal, and rectum, 222
- Cecum, cancer of, and amebic granuloma, 12
- Cecum, primary squamous-cell carcinoma, 213
- Chagas' disease, contribution of motility of the sigmoid and rectum to megacolon in, 291
- Colitis, ischemic proximal to obstructing carcinoma of the colon, 38
- Colitis, ulcerative, 117
- Colitis, ulcerative, in Finland, 259; 264
- Colon, ameboma complicated by cholecystocolonic fistula, 386
- Colon, cancer, transverse colostomy in management, 232
- Colon, carcinoma (symposium), 81
- Colon, carcinoma, obstructing, ischemic colitis proximal to, 38
- Colon, diverticula of, bleeding from, 420
- Colon, diverticular disease, changing concepts, 29
- Colon, diverticular disease, sigmoidomyotomy in, 341
- Colon, duplication, tubular, 206
- Colon, Hirschsprung's disease reappraised, 108
- Colon, injuries, civilian, management, 347
- Colon, injuries, traumatic, 286
- Colon, interflexural carcinoma: clinical, radiologic, and pathologic correlations, 255
- Colon, leiomyoma, 394
- Colon, linitis plastica carcinoma, 389
- Colon, obstruction, complete retrograde, surgical significance, 428
- Colon, polyps (symposium), 167
- Colon, polyps, juvenile in gastrointestinal tract, 375
- Colon, polyps, mixed juvenile, adenomatous, and intermediate, 368
- Colon, preoperative mechanical preparation, alteration of intestinal microflora following, 123
- Colon, ulcerative disease, chronic, 117
- Colorectal carcinoma, survival of patients with hepatic metastases from, 431
- Colostomy closure, water-flow test prior to, 237
- Colostomy, loop, plastic bar for, 308

- Colon, polyps (symposium), 167
- Colon, polyps, juvenile in gastrointestinal tract, 375
- Colon, polyps, mixed juvenile, adenomatous, and intermediate, 368
- Colon, preoperative mechanical preparation, alteration of intestinal microflora following, 123
- Colon, ulcerative disease, chronic, 117
- Colorectal carcinoma, survival of patients with hepatic metastases from, 431
- Colostomy closure, water-flow test prior to, 237
- Colostomy, loop, plastic bar for, 308

Colostomy, radiation-induced rectal stricture treated by, 145
Colostomy, transverse, in management of cancer of the colon, 232
Condyloma acuminatum, 226
Crohn's disease, 117
Crohn's disease, recognition in operating room, 17
Cyst, presacral developmental, in a man, 464

D

Diverticula of the colon, bleeding from, 420
Diverticular disease of the colon, changing concepts, 29
Diverticular disease of the colon, sigmoidmyotomy in, 341
Dog, carcinoma arising in adenomatous polyps in, 191
Duplication of colon, tubular, 206

E

Endometrioma involving perianal tissues, 366
Endometriosis of the intestines, 360
Endoscopy, bolus obstruction relieved by, 400
Epidermoid carcinoma arising in the cecum, 213

F

Factitial proctitis, 281
Feces, disposal in space environment, 32
Finland, ulcerative colitis in, 259; 264
Fistula, cholecystocolonic following ameboma of the ascending colon, 386
Fistulas, anal, treatment, 134

G

Gastrointestinal complications after therapeutic irradiation, 200
Granuloma, amebic, and cecal cancer, 12

H

Hematologic diseases, proctologic disorders associated with, 4
Hemorrhage, diverticula of the colon, 420
Hemorrhage, ischiorectal fossa, as complication of anticoagulant therapy, 398
Hemorrhage, massive traumatic anorectal and perianal postoperatively, 305
Hemorrhoidectomy, closed, computer analysis of 2,038 cases, 128
Hemorrhoids, Peter Lord's treatment, 147
Hemorrhoids, thrombosed, clinicopathologic study, 331
Hirschsprung's disease (letters to the editor), 471
Hirschsprung's disease reappraised, 108

I

Ileitis, regional, recognition in operating room, 17
Ileitis, regional, with free perforation into the peritoneal cavity twice, 310
Ileostomies, acceptability, 460
Intestine, microflora, alteration following preoperative mechanical preparation of the colon, 123
Intestines, endometriosis, 360
Irradiation, therapeutic, gastrointestinal complications, 200
Ischiorectal fossa, hemorrhage into as a complication of anticoagulant therapy, 398

L

Leiomyoma of the colon, 394
Linitis plastica carcinoma of the colon, 389
Linitis plastica, primary, of the rectum, 218
Liver, metastases from colorectal cancer, survival of patients with, 431
Liver, metastases detected by liver scan in patients with colorectal cancer, 43
Liver scan in management of colorectal cancer, 43

M

Mathews Orations, history (sixteenth Mathews Oration), 415
Megacolon in Chagas' disease, motility of sigmoid and rectum contributing to, 291
Megacolon, Hirschsprung's disease reappraised, 108
Microbiologic spectrum of septicemia in surgical patients with intestinal diseases, 195
Microflora, intestinal, alteration following preoperative mechanical preparation of the colon, 123

O

Obstruction, bolus, relieved by endoscopy, 400
Obstruction, colonic, complete retrograde, surgical significance, 428

P

Papillae, anal, 435
Papillary adenomas, 267
Perforation, free acute of regional ileitis, recurrence, 310
Perianal endometrioma, 366
Pilonidal disease, excision with primary closure, 353
Pilonidal disease, treatment, 57
Pilonidal sinus, sacrococcygeal, 356
Pilonidal sinuses of the anal canal, 468

Polyposis coli, mixed juvenile, adenomatous, and intermediate, 368
Polyposis, juvenile gastrointestinal, 375
Polyps, adenomatous in dog rectum, carcinoma arising in, 191
Polyps, colorectal (symposium), 167
Preoperative mechanical cleansing of the colon, alteration of intestinal microflora following, 123
Presacral developmental cyst in a man, 464
Proctitis, factitial, 281
Proctotomy, anal, posterior and anterior, 62

R

Radiation-induced rectal stricture, colostomy in, 145
Radioisotopic scanning of liver in management of colorectal cancer, 43
Rectum, carcinoid tumors, 46
Rectum, carcinoma (symposium), 81
Rectum, linitis plastica, primary, 218
Rectum, polyps (symposium), 167
Rectum, stricture, colostomy in, 145

S

Septicemia in surgical patients with intestinal diseases, 195
Sigmoidmyotomy in diverticular disease of the colon, 341
Space environment, management of metabolic waste in, 32

Squamous-cell carcinoma of the cecum, primary, 213
Stenosis, anal, treated by posterior and anterior proctotomy, 62
Stricture, rectal, colostomy in, 145
Sulfamylon, adjunct in treatment of indolent wounds, 24

T

Thiersch technic, modification, 451
Thrombosed hemorrhoids, clinicopathologic study, 331
Transitional-cell cloacogenic carcinoma of the perianal region, anal canal, and rectum, 222
Tuberculosis of the anal canal, 313

U

Ulcerative disease of the colon, chronic, 117
Urine, disposal in space environment, 32

V

Venereal disease of the anal region in India, 454
Venereal wart tumors (condyloma acuminatum), 226

W

Waste, metabolic, disposal in space environment, 32
Water-flow test prior to colostomy closure, 237
Wounds, indolent, treated by sulfamylon, 24
